

## ExeLED 2

### LED-Light Fitting for Ex-Zones 2/22

#### Series nD866...

##### Applications:

Hazardous locations of zones 2 (gas) and 22 (dust).

##### Design:

**Housing:** Glass fibre reinforced polyester resin.

**Cover:** Injected polycarbonate, frosted (F), silicone gasket.

**Closure:** Stainless steel clips (KE), two of them as safety clip (KES), to be opened with screwdriver only.

**Reflector:** Sheet Steel, painted, carrying the

LED-modules and all electrical components, clipped into the cover, suspendable.

**Connection:** 3 poles up to 2.5 mm<sup>2</sup>.

**Cable entries:** 3 entries M25 x 1.5, (2 glands - one of them is plugged) Standard: Facing downwards or forwards.

##### Mechanical installation:

Direct ceiling mounting is possible. Rubber washers are included Further mounting options see accessories / spare parts.

##### Technical Data:

**LED:** Line modules 5,000 K, CRI > 80, service life L<sub>80</sub> > 100,000 h at max. ambient temperature, L<sub>90</sub> > 80,000 h (06L..) at 25 °C ambient temperature, L<sub>90</sub> > 90,000 h (12L..) at 25 °C ambient temperature

**ECG:** 220-240 V AC/DC, 0 or 50/60 Hz, overvoltage, overload and short circuit protection

##### Options:

– 3,000 K; light colour (830)

– through-wiring (DV)

– for lower ambient temperatures (T40), down to -40 °C

– for connection to central emergency supply systems (ZB)

– for connection to central emergency supply systems with integrated monitoring module

##### Note:

This light fitting is not suitable for application in areas with permanent high humidity in combination with only short periods of operation, such as sewage or stormwater retention tanks or water treatment plants.

##### Product highlights:

- Reflector and cover in sandwich design to protect the LED-Modules from mechanical or electrostatic damages due to accidental contact
- homogeneous illumination by using frosted diffusers no individual light points visible, comfortable perception of light, brilliant glare limitation
- high colour rendering index CRI > 80, according to the workplace guide lines suitable for nearly all plant locations
- FastFix mounting, system for variable mounting distances and easy installation (retaining clips HK865 P) without opening the fitting
- sustainable, control gear and reflector with LED-modules replaceable by qualified personnel on-site
- the light fittings are suitable for use in food areas (IFS/HACCP), see chapter 9.1 in the „Technical Supplement“

##### Looping the cable on one side:

All light fittings of series nD866... have got 2 cable entries on one small side of the housing for cable looping instead of the through-wiring system.

**Properties, limitations and details for controlling LED-light fittings:**

See "Technical Supplement"

All data are correct at the time of printing. Actual technical data can be found under [www.schuch.de](http://www.schuch.de).

#### dimable via DALI interface

#### Design:

Same as standard version, but with DALI2-compatible ECG and 2 additional clamping points, marked with DA. Compatible with LIMAS Line BASIC/PRO Light Management System.

#### Note:

The conducting wires to the control input must be mains voltage stable and can be integrated in the connection cable.
